Internal small User Cases in SEASN LOT

Overview

Digitalization of the Agricultural Advisory Service

Initiative for Agricultural Development of Kosovo (IADK)

Providing technical skill capacity and linking farmers with advisers via an online platform
 Supporting smallholder farmers in reaching their full production potential

~ 20 Advisors

~ 40 farmers

~ 200 ha

Enhancing Agricultural Advisory Services in North Macedonia

Simplifies data entry and management, reducing administrative burden

Accumulates successful practices and solutions, creating a valuable knowledge base.

Fondacija agro centar za edukacija (FACE)

~ 12 Advisors

~ 2904 farmers

Digitalisation as marketing tool in agriculture

Center biotehnike in turizma-GRM

Aim of the User case is to enable the FAIRSHARE project partners especially the farmers to offer their products on the local and global market with no cost

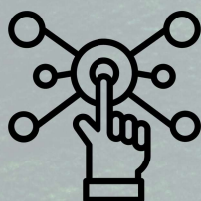

Adaptation of platform offers that each Fairshare partner could open their own web page on their own domain for free. In the same moment this new page is not alone in the wide world of web but it is already connected into the network of pages.

Towards next GenerAtion Greek ADVISORS (GAIAdvisors)

GAIA CONSULTING

The User Case primarily aims to train advisors in a way that will help them meet the challenges, benefit them, and make them able to integrate DATS into their daily activities

~ 6 Tools

~ 1250 farmers

~ 2900 ha
